### **DETAILED ACTION**

The indicated allowability of claims 20-21 is withdrawn in view of newly cited prior art.

#### ***Claim Rejections - 35 USC § 103***

1. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

2. Claims 20 and 21 are rejected under 35 U.S.C. 103(a) as being unpatentable over Girgis et al, 4,762,750 (Girgis).

Girgis teaches a sizing composition comprising a silane coupling agent, a protectorant that can be a polyamide, lubricants such as non-ionic lubricants and cationic lubricants, and polyurethanes of the type contemplated by applicants. See columns 5-7. Girgis does not specifically teach the amount of polyamide present in his composition, however, it is the examiner's position that since the result sought and the ingredients used were known, it would have been within the expected skills of one having ordinary skill in this art to arrive at the optimum proportion of those ingredients. *In re Reese*, 129 USPQ 402 (CCPA 1961).

Accordingly, the teachings of Girgis would have rendered obvious the invention as claimed in present claims 20 and 21.

#### ***Allowable Subject Matter***

3. Claims 1 and 3-18 are allowed over the prior art currently of record.
